

Planning a Move?

Remember **MOVE IT** for a Safe and Successful Move

M

Make sure you know your rights before hiring a mover. SMA has the resources and information you need at mytexasmover.com.

O

Over-communicate with your mover regarding pickup and delivery dates—especially if you have a firm deadline or must vacate your residence by a certain date.

V

Verify that the mover you choose is licensed with the Texas Department of Motor Vehicles (TxDMV) at txdmv.gov/motorists/consumer-protection/dont-make-a-move.

E

Estimates in writing are a must. Avoid movers that refuse to put estimates in writing and consider getting more than one quote before making your decision.

I

Insure valuables and know how much your mover's insurance will cover for broken or misplaced items—extra insurance may be needed for more expensive items.

T

Take your time—moving can be a manageable process with proper planning. Do research and follow a plan for the best chance for a successful and safe moving experience!

Looking for a licensed mover in your area? Visit mytexasmover.com.
